

Newly authorized feed materials and other developments in FSP (September 2020)

Feed material	Remarks	As part of the risk assessment (RA)
Flower of Sulphur (11.547)	New feed material: 11.547	Flower of Sulphur
Potato cuttings, dried (4.125) Potatoes, dried (4.126) Potatoes, steamed (4.127)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • New feed materials. 4.125; 4.126; 4.127 • Updated flow chart: updated details 2, new details 14 & 15 + updated details 19 • Updated table of hazards: replace "polyethylene" by "packaging materials" 	Potato processing industry
Peas, toasted (3.028)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • New feed material: 3.028 • New products synonyms: references to EU catalogue of feed materials • New possible processing aids: air; natural gas • Updated flow chart: new details 4 and new details 6 • Updated table of hazards: addition of toxic substances at treatment/processing 	Pea processing industry
Horse beans, toasted (3.049)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • New feed material: 3.049 • New possible processing aid: air, water (steam), natural gas • Updated flow chart: details 5 and 7 • Updated table of hazards: replace "polyethylene" by "packaging materials" 	Horse beans industry

Newly authorized feed materials and other developments in FSP
(September 2020)

Feed material	Remarks	As part of the risk assessment (RA)
Dried malt protein (1.015)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • New feed materials: 1.015 • Updated flow chart: details 4 	Beer industry by-products
Pea straw (6.023) Peas (3.010)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • New products synonyms: references to EU catalogue of feed materials • Updated table of hazards: addition of antinutritional factors at cultivation; replace "polyethylene" by "packaging materials" 	Peas
Sea algae meal, hydrolyzed (7.027)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • Updated risk assessment name: "Seaweed products (from mariculture or wild origin)" instead of "seaweed products (from mariculture)" • New feed material: 7.027 • New possible processing aids: (tap)water; organic acids; sodium carbonate • Updated flow chart: details 1, 2 and new details 5 • Updated table of hazards: replace "polyethylene" and "plastics" by "packaging materials", addition of iodine, remove biocides at treatment 	Seaweed products (from mariculture or wild origin)
All included feed materials	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • New possible processing aid: alcohol water • Updated flow chart: details 1 	Bio-ethanol industry

Newly authorized feed materials and other developments in FSP
(September 2020)

Feed material	Remarks	As part of the risk assessment (RA)
Calcium salts of vegetable fatty acids (2.092)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • Updated product definition: 2.092 • Updated flow chart: details 1 • Update table of hazards: replace hazards at reception by mention to respective risk assessment for raw materials 	Calcium salts of vegetable fatty acids
Animal fat (9.001)	Risk assessment updated. Relevant changes: <ul style="list-style-type: none"> • Updated flowchart: details 1, 3 & 4 • Updated table of hazards. Addition of insoluble impurities at treatment • Addition reference to 429/2016 (on animal diseases) 	Animal fat
